

FREE MEMORY SCREENING

Do you ever wonder if your memory is normal for your age? Have you missed an appointment that you forgot to put on your calendar? Or do you have to hunt for your keys or forget to take your medication and worry that your memory is declining?

A memory screening is not a memory evaluation. You will be given a series of questions and tasks designed to screen for memory, language skills and thinking ability. If the screening reveals memory concerns, testing results will be given to you and next steps will be discussed.

If someone is experiencing minor memory problems early evaluation is important. Some memory problems, such as those caused by vitamin deficiencies or thyroid problems can be readily treated. Individuals with mild cognitive impairment or Alzheimer's disease also benefit from early treatment.

When: Tuesday, January 17, 2012
10-11:30 a.m. (By appointment)

Where: Somerville Council on Aging
167 Holland Street, Somerville, MA

To schedule an appointment, call 617-625-6600, ext. 2300. Lunch and transportation are available upon request.

*Hosted by the Somerville Council on Aging
in collaboration with the Cambridge Health Alliance*
