"Jane's Walks" happen worldwide the first Saturday of every May to celebrate the life and birthday of the late citizen activist Jane Jacob. Author of *The Life and Death of Great American Cities*, Jane appreciated cities --the diversity of people, cultures, and spaces, and successfully fought against developers, politicians and planners who continually ignored the needs and concerns of local residents. These walks are designed to encourage people to explore their neighborhood, meet their neighbors, and to share their interests and issues with others.

This event is part of Somerville's May Preservation Month. For more information, contact SHPC Executive Director Brandon Wilson at (617)625-6600, ext. 2532 or via bwilson@somervillema.gov or visit www.somervillema.gov/historicpreservation
