

Somerville Commission for Persons with Disabilities

Agenda- Tuesday, November 9, 2010

1. BA Landscape Architects will present plans for the renovation of Morse-Kelley and Dickerman Parks on Craigie Street. Brief explanation:
 - a. Both parks were designed with accessibility as a priority. The plan for Morse-Kelley Park includes a potential new staircase leading from Summer Street to the park; to build the staircase the City will need to obtain a variance from AAB (similar to the recent Grimmons Park renovation). CBA would like to present the park plans to the Commission on November 9. We would ask the Commission to consider writing a letter of support for the variance after reviewing the design.
2. A reading and approval of the September meeting minutes.
3. A vote needs to be taken to elect officers of the commission, Chair and Secretary.
4. Commissioner has requested and up date copy of commissioners and their contact info.
5. Chair would like an up date on progress for new commission members.
6. Any new businesses from commissioners and/or public

7.
