**DESCRIPTION:**

The proposal is to construct a triple-decker on the vacant lot. There will be three units. The first floor unit will have 5 bedrooms, 2.5 baths, and a kitchen/living area. They will have living space on the first floor and basement. The rest of the basement will have mechanical and storage space for each unit. The second and third floor units are identical. They have 4 bedrooms, 1.5 baths, and a kitchen/living space. The building will be shifted on the lot to allow for 3' between the northwest façade and property line. Each unit will have a rear deck. There will be a front planting bed with paved access to a bike parking area in the rear of the building. The Applicant is proposing to have a coordinated planting area with 19-21 Calvin Street, the other complete loss. The property owner of 19-21 Calvin Street has not applied for a Special Permit but has been working with Staff towards an application.

**FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. **Information Supplied:** The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.
2. **Compliance with Standards:** The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."

In considering a special permit under §4.4 of the SZO, the Board finds that the building proposed would not be substantially more detrimental to the neighborhood than the previous structure.

3. **Consistency with Purposes:** The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville, providing for and maintain the uniquely integrated structure of uses in the City; and to encourage housing for persons of all income levels.

The proposal is consistent with the purpose of the district, which is, "to establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts."

4. **Site and Area Compatibility:** The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."

The proposed building will be compatible with the neighborhood in design and residential use.

**DECISION:**

Present and sitting were Members Herbert Foster, Orsola Susan Fontano, Richard Rossetti, Danielle Evans and Elaine Severino with Josh Safdie and Brandy Brooks absent. Upon making the above findings, Susan Fontano made a motion to approve the request for a Special Permit. Richard Rossetti seconded the motion. Wherefore the Zoning Board of Appeals voted **5-0** to **APPROVE** the request. In addition the following conditions were attached:
