DESCRIPTION:

The proposal is to add a rear addition to the home that will add 153 square feet to the footprint of the home. On the first floor, it will accommodate the relocation of the first floor half-bath and renovation of the kitchen. On the second floor it will allow for the addition of a bedroom. As part of the renovation, the existing rear door will be relocated to the conforming side yard.

FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied: The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure.

3. Consistency with Purposes: The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville; to prevent the overcrowding of land; and to encourage the most appropriate use of land throughout the City.

The proposal is consistent with the purpose of the district, which is, "to establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.

4. Site and Area Compatibility: The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."

DECISION:
