DESCRIPTION:

The proposal is to substantially demolish the structure and build a three-family dwelling. Each unit will be multi-story. All units will have two bedrooms and a study. The units will be approximately 1390, 1255, and 1236 square feet. There is an unfinished basement that will serve as storage space.

FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied: The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."

Lawfully existing nonconforming structures other than one- and two-family dwellings may be enlarged, extended, renovated or altered only by special permit authorized by the SPGA in accordance with the procedures of Article 5. The building is nonconforming in terms of the front and side yard setbacks as well as landscaping and pervious surface requirements. The zoning data table is listed on the plan set. In considering a special permit under §4.4 of the SZO, Staff find that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The front and side yard sets will remain the same. The landscaping percentage will be close to the conforming figure with 22.1% of the site as vegetative landscaping. With the addition of pervious pavers and landscaping the pervious surface figures will become conforming as a result of this application.

The parking requirements are met. Each of the two-bedroom units requires 1.5 spaces for a total that rounds up to 5. All five spaces will be hidden from view in the garage.

3. Consistency with Purposes: The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to providing for and maintaining the uniquely integrated structure of uses in the City and encouraging the most appropriate use of land throughout the City.

As a proposal for a three-family dwelling it is consistent with the purpose of the RB district, which is, "[t]o establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.

4. Site and Area Compatibility: The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."

The surrounding neighborhood is comprised of a mix of one-, two-, and multi-family homes. The East Somerville Community School and Prospect Hill Academy are within close proximity.

The proposal has been designed to be compatible with the neighborhood and with the Historic Preservation Commission's request for the new structure to retain the existing streetscape. The house will continue to have a side gable and one front entrance along the street which is consistent with the existing structure and many of the structures on the street. The house

will have elements that are typical of houses in Somerville such as a front porch, bay windows, small gable dormers, and a rear “addition” or mass that is smaller in scale than the main structure of the house.

Fixing the existing block garage will allow for all five of the required parking spaces to be enclosed. A neighbor had concerns about the structural integrity of the garage and so the Applicant supplied a letter from a structural engineer stating that after renovation, the existing garage structure will be structurally sound to the requirements of the building code.

In order to make up for the large amount of the site that will have to be a hard surface to make this garage function, some of the pavement will be pervious pavers. This portion of the driveway could function as a patio space if residents do not need parking spaces for 5 cars.

DECISION:

Present and sitting were Members Orsola Susan Fontano, Richard Rossetti, Danielle Evans, Elaine Severino and Brandy Brooks with Herbert Foster and Josh Safdie absent. Upon making the above findings, Susan Fontano made a motion to approve the request for a Special Permit. Brandy Brooks seconded the motion. Wherefore the Zoning Board of Appeals voted **4-1** to **APPROVE** the request with Danielle Evans voting in opposition. In addition the following conditions were attached:

CLERK'S CERTIFICATE

Any appeal of this decision must be filed within twenty days after the date this notice is filed in the Office of the City Clerk, and must be filed in accordance with M.G.L. c. 40A, sec. 17 and SZO sec. 3.2.10.

In accordance with M.G.L. c. 40 A, sec. 11, no variance shall take effect until a copy of the decision bearing the certification of the City Clerk that twenty days have elapsed after the decision has been filed in the Office of the City Clerk and no appeal has been filed, or that if such appeal has been filed, that it has been dismissed or denied, is recorded in the Middlesex County Registry of Deeds and indexed in the grantor index under the name of the owner of record or is recorded and noted on the owner's certificate of title.

Also in accordance with M.G.L. c. 40 A, sec. 11, a special permit shall not take effect until a copy of the decision bearing the certification of the City Clerk that twenty days have elapsed after the decision has been filed in the Office of the City Clerk and either that no appeal has been filed or the appeal has been filed within such time, is recorded in the Middlesex County Registry of Deeds and indexed in the grantor index under the name of the owner of record or is recorded and noted on the owner's certificate of title. The person exercising rights under a duly appealed Special Permit does so at risk that a court will reverse the permit and that any construction performed under the permit may be ordered undone.

The owner or applicant shall pay the fee for recording or registering. Furthermore, a permit from the Division of Inspectional Services shall be required in order to proceed with any project favorably decided upon by this decision, and upon request, the Applicant shall present evidence to the Building Official that this decision is properly recorded.
