DESCRIPTION:

The proposal is to finish the basement of the existing property. The finished area of the basement will be accessible by the first floor unit and be finished with a recreation area, wet bar, and bathroom.

FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

Per SZO §4.4.1 a lawfully existing nonconforming structure may be enlarged, extended, renovated or altered by special permit. Expanding a nonconforming FAR requires a special permit. The existing FAR is 1.55 and will be expanded to 1.72. There will be no alterations to the exterior of the structure.

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; and to preserve the historical and architectural resources of the City.

The proposal is consistent with the purpose of the district, which is, "to establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts." This is a legal 3-family and the additional square footage will not change the exterior of the home.

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

The subject property is located in a Residence A zone. The immediate neighborhood is predominantly residential, with a mix of single-, two-, and three- family homes. The property is close to the Broadway corridor on the west side of Winter Hill. The Medford city line is just north of Broadway.

There are no impacts to the proposal since the increased FAR will not change the design of the outside of the building.

7. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

This will not have an adverse impact on existing affordable housing.

8. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

This project complies with the SomerVision plan by allowing homeowners to make improvements to their property.
