Appeal #ZBA 2015-69 was opened before the Zoning Board of Appeals at Somerville City Hall on September 16, 2015. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. After one hearing of deliberation, the Zoning Board of Appeals took a vote.

**DESCRIPTION:**

The proposal is to finish the basement to provide additional living space for the first floor unit.

**FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §4.4.1 of the SZO. This section of the report goes through §4.4.1 in detail.

1. Information Supplied:

- The Board finds that the information provided by the Applicant conforms to the requirements of §4.4.1 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

- The structure is currently non-conforming with respect to the floor area ratio (FAR).
- The proposal will change the floor area ratio from 0.99 to 1.24. The FAR allowed in the RA zone is 0.75. Intensifying this existing non-conformity requires the Applicant to obtain a special permit under §4.4.1 of the Somerville Zoning Ordinance (SZO). This is a significant increase in the FAR. However, on a square footage basis, it brings the first floor unit more in line with the square footage of the second-to-third-floor unit.
- Total number of bedrooms in the structure is being reduced by one: The first floor/basement unit will continue to have one bedroom. The second-to-third-floor unit will reduce from five bedrooms to four.

Section 4.4.1 states that “[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5.”

- In considering a special permit under §4.4.1 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than those contained within the existing structure. Finishing a basement is a way of adding more square feet to a home without any impact on abutting properties since there is no change to the setbacks of the home. The reduction in bedroom count negates any need for parking relief.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

- The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville; to secure safety from fire, panic and other dangers; to encourage the most appropriate use of land throughout the City; and to encourage housing for persons of all income levels.
- The proposal is consistent with the purpose of the district, which is, “[t]o establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

- The surrounding neighborhood is a mix of residential uses.
- There are few to no impacts from the proposal. All modifications are to the inside of the home.

5. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

- The proposal will not impact the existing stock of affordable housing.

6. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

- The proposal will not contribute to the metrics of SomerVision but will allow the property owner to make some modifications within the confines of the structure.
