Legal Notice: Applicant and Owners, John Murphy and John Berrigan, seek a Special Permit per SZO §4.4.1 to alter a nonconforming structure to extend a dormer, modify a rear addition, and add rear decks.

<u>Zoning District/Ward:</u>	RB zone/Ward 2
<u>Zoning Approval Sought:</u>	§4.4.1
<u>Date of Application:</u>	December 2, 2014
<u>Date(s) of Public Hearing:</u>	January 7, 2015
<u>Date of Decision:</u>	January 7, 2015
<u>Vote:</u>	5-0

Appeal #ZBA 2014-117 was opened before the Zoning Board of Appeals at the Visiting Nurse Association on January 7, 2015. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. After one hearing of deliberation, the Zoning Board of Appeals took a vote.

DESCRIPTION:

The proposal is to modify the exterior of the home in several ways. The first is to extend an existing dormer on the right side of the house. The dormer extension will be built in conjunction with the rear addition. The existing rear addition is only on the second floor and is proposed to be rebuilt on all three floors. There will also be new rear decks and egress stairs built on the rear of the home next to the addition. This will create some outdoor amenity space for Units 1 & 3.

FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

Per SZO §4.4.1, lawfully existing nonconforming structures other than one- and two-family dwellings may be enlarged, extended, renovated or altered only by special permit. The dormer, rear addition, and egress stairs all require a special permit.

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville; to preserve the historical and architectural resources of the City; and to encourage housing for persons of all income levels.

The proposal is consistent with the purpose of the district, which is, "To establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts."

No parking relief is needed for the application. The existing parking requirement is five spaces. The renovation requires 6 parking spaces and a driveway is being added to the site.

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Landers Street is a short street accessed off of School Street. There is a mix of single-, two-, and three-family homes in the area. The property is a short distance from the businesses on Somerville Avenue and Osgood Park.

There are little to no impacts of the proposed project except those customary to residential uses. The renovations will improve the appearance of the rear of the home and several site improvements will be made.

6. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

It can be assumed that the condition of the property made these units affordable but the proposed renovations will increase the quantity of family sized units in Somerville.

7. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

The proposal will not drastically contribute to the SomerVision target numbers but will provide contextual renovation and development in a residential zone as called for in the SomerVision plan.

DECISION:

Present and sitting were Members Herbert Foster, Orsola Susan Fontano, Richard Rossetti, Danielle Evans and Elaine Severino. Upon making the above findings, Susan Fontano made a motion to approve the request for a Special Permit. Richard Rossetti seconded the motion. Wherefore the Zoning Board of Appeals voted **5-0** to **APPROVE** the request. In addition the following conditions were attached:
